PROFESSIONAL SUMMARY

With over 7 years of experience in the gaming industry, I have worked in Unity-based game development, game design, and product management. I have managed product development processes end-to-end in my own game studio, playing an active role in team management, publisher relations, and product strategy. Through my data-driven approach and technical background, I focus on improving both player experience and product performance.

WORK EXPERIENCE

Managing Partner / Operations Manager

Mert Dizay (Packaging Machinery Manufacturing)

January 2025 – January 2026

- Invested in and partnered with a manufacturing company producing packaging machines.
- Managed company operations and financial processes.
- Managed a financial structure with a monthly turnover of approximately 1.5 million TL.

Founder / Product Manager & Game Design

Aztech Games

January 2021 – January 2025

- Managed a team of 10, personally directing game design and product management processes.
- Developed mobile games through exclusive partnerships with giants such as Rollic, Moonee, and Lion Studios.
- Designed custom Unity editor tools and frameworks to accelerate development cycles.
- Delivered over 1000 hours of in-person and online training at academic and corporate levels (Universities, Private Institutions).
- Provided consultancy services to independent teams on game design and technical workflows.

Core Mechanic Developer

Hedgehog Games

September 2020 – December 2020

- Focused on combat systems, AI (Boss & NPC) mechanics, and animation integration.
- Developed core mechanics for a casual 2.5D Pixel Beat 'em up game.

Indie Game Developer

Freelance / Solo

January 2018 – September 2020

- I gained commercial experience by developing various small and medium-scale projects using the Unity engine. I participated in many GameJams and achieved rankings.

EDUCATION

Fırat University – Aircraft Electrical-Electronics Engineering (Bachelor's Degree)
GPA: 3.1 / 4.0
